

REMARKS

This paper is responsive to the Notice of Allowance dated July 9, 2007, which states that claims 20, 22 and 26 are allowed.

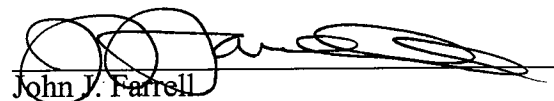

The Notice of Allowance states that a certified copy of an original application to which Applicants claim foreign priority is required. However, as discussed in teleconference with the Examiner on September 28, 2007, no such claim has been made. Thus, a certified copy of the application is not required.

The Notice of Allowance objected to the drawings because Figure 7 is not included in the detailed description. Applicants have amended the specification to include a reference to Figure 7 in the detailed description. Specifically, the specification has been amended to recite, "FIGURE 7 is a block diagram of a preferred embodiment of the invention showing a wireline network connected to the wireless network." Thus, the objection to the drawings is overcome.

Entry of this amendment is respectfully urged since it merely cures a formal defect in the specification and does not touch the merits.

Respectfully submitted,

Dated: 10/9/07
